DEC 20 2006  
INVENTOR: Benton F. Baugh  
TITLE: ROTO-ERECTOR FOR J-LAY PIPELAYING SYSTEM  
APPLICATION NO.: 10/678,282  
ART UNIT: 3652  
EXAMINER: Gregory W. Adams Phone 571-272-8101, FAX 571-273-8101

In independent claim 1 I have changed "away from" to "moving in a radial direction" in place of "extending" and in independent claims 7 and 12 I have changed "extending" to "moving" to teach that the invention actively moves the pipes in a radial direction rather than simply supports in a radial direction.

In claim 1 I have restricted the position of the rotational axis to be approximately parallel to the support arm.

A copy of the revised claims are attached.

I appreciate your assistance in this matter.
